## Barbaresco Docg 2005

### Vineyard

The Barbaresco docg 2005 is made by a selection of Nebbiolo grape grown in several estate vineyards in the Barbaresco area (Rabajà, Rabajà-bass and Faset). The soil is formed by white earth, with a high chalky clay content, known as the "Marne di Sant'Agata" (30% sand – 55% clay – 15% limestone). From this kind of soil we obtain wines elegant, perfumed, with a good potential ageing.

### Picking and maceration

The harvest took place by hand on October 5<sup>th</sup> 2005.

The maceration in stainless steel tanks lasted 23 days, with punching down of the cap.

### Ageing

The wine was aged for 17 months in large oak casks and 7 months in steel tanks, followed by 15 months in the bottle prior to its release.

### Bottling

The wine was bottled without any filtration on October 31st 2007, with lot no. L07-304.

Total production in the 2005 vintage is: 5.633 Albeisa bottles holding 0.75 l.

### Tasting notes

Ruby red with the nuances that are typical of a vintage Nebbiolo. Fresh and clean at the nose, which conjures up ripe red fruits blending perfectly with the aromas resulting from the aging of the wine in big wooden casks. Appealing acidity and a nicely tannic finish make this wine approachable, with good length.

### Analytical data

Alcool 14% by Vol.

Total acidity 5,9 g/l

pH 3,50

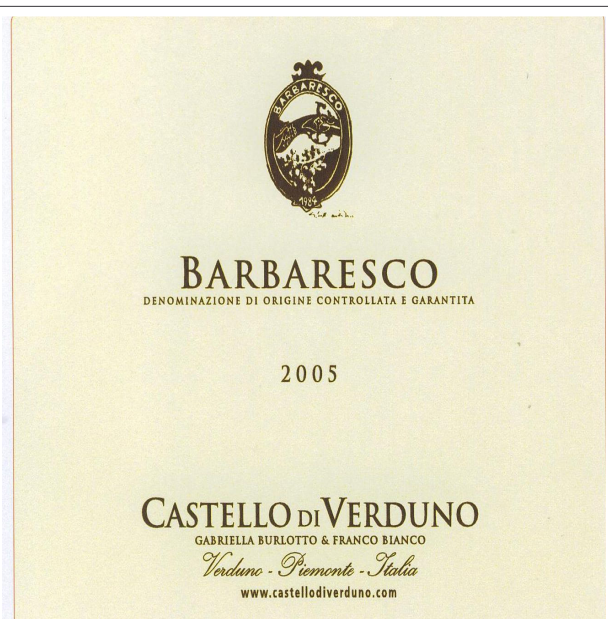

Extract 2g/l

### Particularities

"a everyday Barbaresco"!

### 2005 Vintage

The climatic pattern was satisfactory, though unusual. Winter and spring were in the norm, with no high or low peaks. The beginning of summer was very hot, with temperatures of over 35°C and some storms in August. Some rain early in September was followed by fine weather until the beginning of October, when it began to rain after the harvest had ended.
